

The all-in-one platform your church **will love.**

Members, giving, advanced accounting, events, and worship planning in one place — with AI so intuitive there's no learning curve, on fast, reliable, modern technology.

✓ Free version available

✓ 1-month free trial

✓ Free migration support

✓ Zero learning curve

Members & Families

Complete profiles, groups, ministries, follow-ups, and member portals.

Giving & Accounting

Online giving, income & expense tracking, bank sync, and year-end statements.

Worship & Events

Plan services, publish events with RSVP, check in attendees, schedule volunteers.

AI Assistant

Plain-English search, voice commands, and automatic check & statement scanning.

"Let all things be done decently and in order."

— 1 Corinthians 14:40

Modern, AI-integrated church management

ChurchGeniusPro brings your whole ministry workflow — from Sunday check-in to year-end giving statements — into one secure, cloud-hosted platform. One login serves your whole team: the front office, the worship team, the finance desk, and your volunteers. Running your church stops feeling like a task and starts being simple, organized, and even fun.

Zero

LEARNING CURVE

**Make it your own**

Your branding, your portals, your dashboards, your permissions — shape the platform around your church instead of bending your ministry around software.

**No learning curve**

Advanced AI does the heavy lifting — ask questions in plain English, speak your entries, and scan checks or bank statements automatically.

**A step ahead**

More advanced than other church management and accounting applications — built on fast, reliable, modern technology at a price others can't challenge.

**Free migration support**

Switching from another system? We bring your members, giving history, and groups over for you — at no charge.

**Simple for volunteers**

Clean, intuitive screens that first-time volunteers can use on Sunday morning without any training.

**Grows with you**

A free version, a 1-month trial, and plans for congregations of every size — from church plants to multi-ministry campuses.

Every tool your church needs — in one place

Member Management

Rich member & family profiles, custom types, photos, and smart search.

Church Portals

Branded portals for staff, church, members, and children.

Staff & Payroll

Roles, permissions, and W-2 payroll built right in.

Accounting

Income, expenses, funds, pledges, reports, and bank sync with review queue.

Online Giving

Simple digital giving with per-church payment settings.

Worship Planning

Song library, set lists, and service planning with your team.

Event Registration

Public RSVP pages, QR tickets, invitations, and automated reminders.

Volunteer Scheduling

Roles, sign-ups, and rosters for every event and service.

Attendance Tracking

QR, barcode, and camera check-in with dashboards and exports.

Groups

Small groups, classes, and teams with rosters and messaging.

In-App Chat

Secure conversations for staff and ministry teams.

Kids Check-In

Kids ministry check-in with secure pickup codes and labels.

SMS Notifications

Text reminders, invitations, and alerts with opt-in compliance.

AI Integration

Natural-language search, voice commands, and check/statement OCR.

Migration Support

Free assisted import of members, families, income, and expenses.

Ministries

Organize ministries with leaders, members, and activity tracking.

Sunday School

Classes, students, exams, and certificates for every age group.

Public Screens

Lobby displays for announcements, verses, and live event info.

NTag Login

Tap-to-login with NFC tags — secure 3-factor temporary access.

Private WiFi Access

Lock sensitive pages to your building's network.

Mobile Application

Installable app experience on iOS and Android devices.

Follow-Up Management

Track visitor and member follow-ups so no one falls through.

Meeting Management

Recurring meetings with automated weekly reminders.

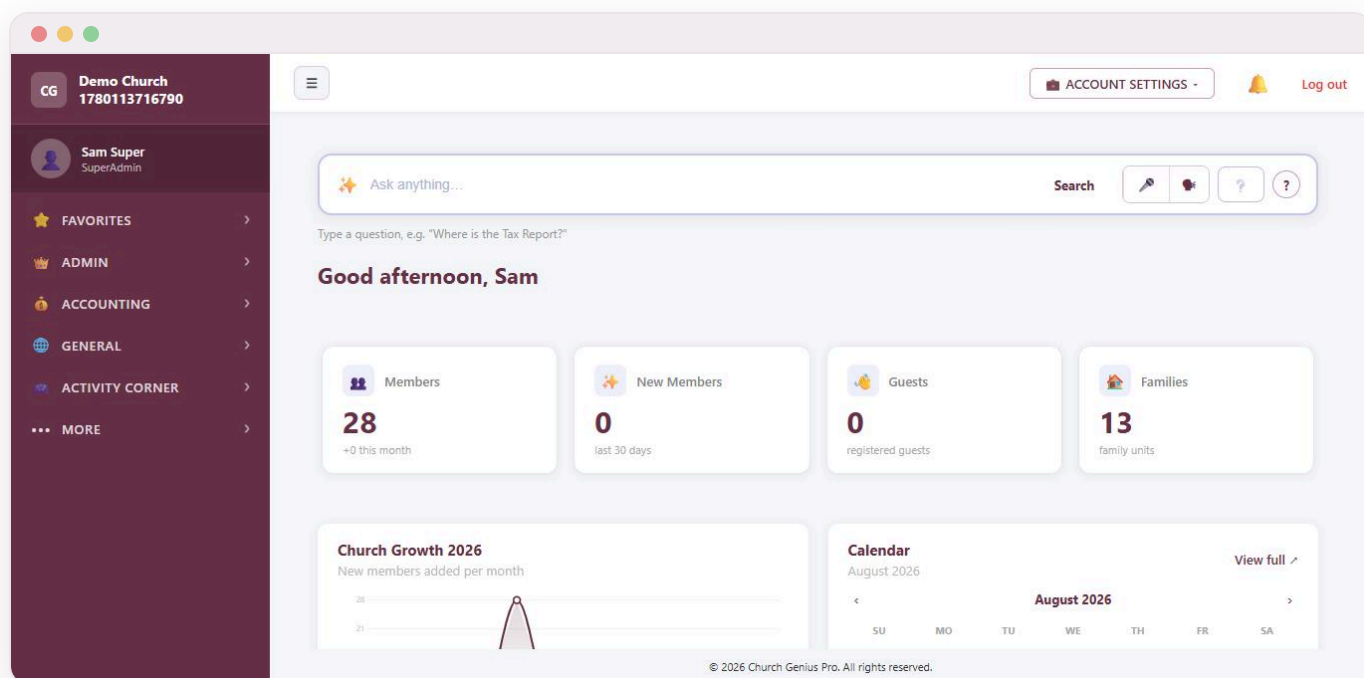

Favorites

Pin the pages your team uses most for one-tap access.

Your whole church at a glance

Every morning starts with a clear picture: membership counts, new members, guests, family units, growth trends, and this month's calendar — plus an AI search bar that answers questions like “Where is the Tax Report?” in plain English. Role-based permissions ensure staff and volunteers each see exactly what they should.

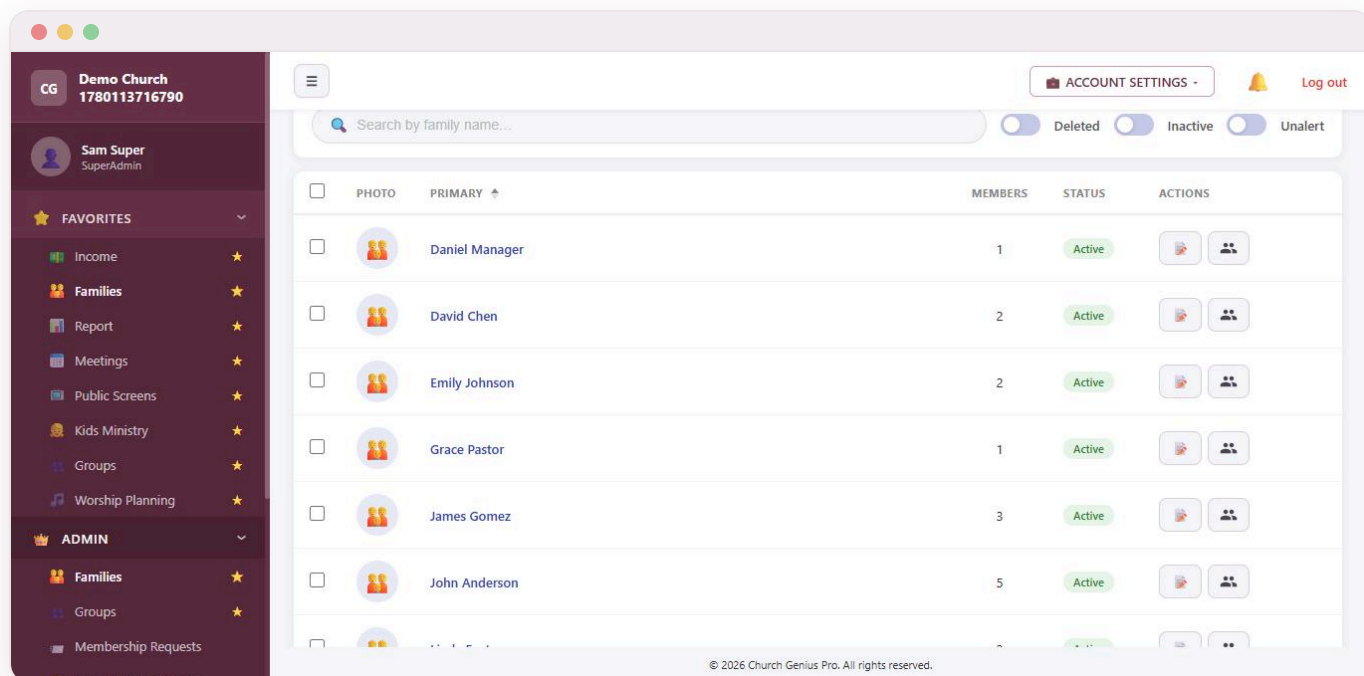

The admin dashboard: live stats, growth chart, calendar, and AI-powered “Ask anything” search.

HOW IT HELPS YOUR CHURCH

- ✓ Leadership sees membership and growth trends without asking anyone to compile numbers.
- ✓ AI search and voice commands mean staff find any record or report in seconds — no training needed.
- ✓ Granular roles and permissions keep sensitive data limited to the right people.

Know every member, every family

Keep complete, always-current profiles for every person and family — photos, contact details, birthdays, anniversaries, member types, groups, and ministries. Powerful filters and smart search make it easy to find anyone; membership forms and scanned-form upload make onboarding painless.

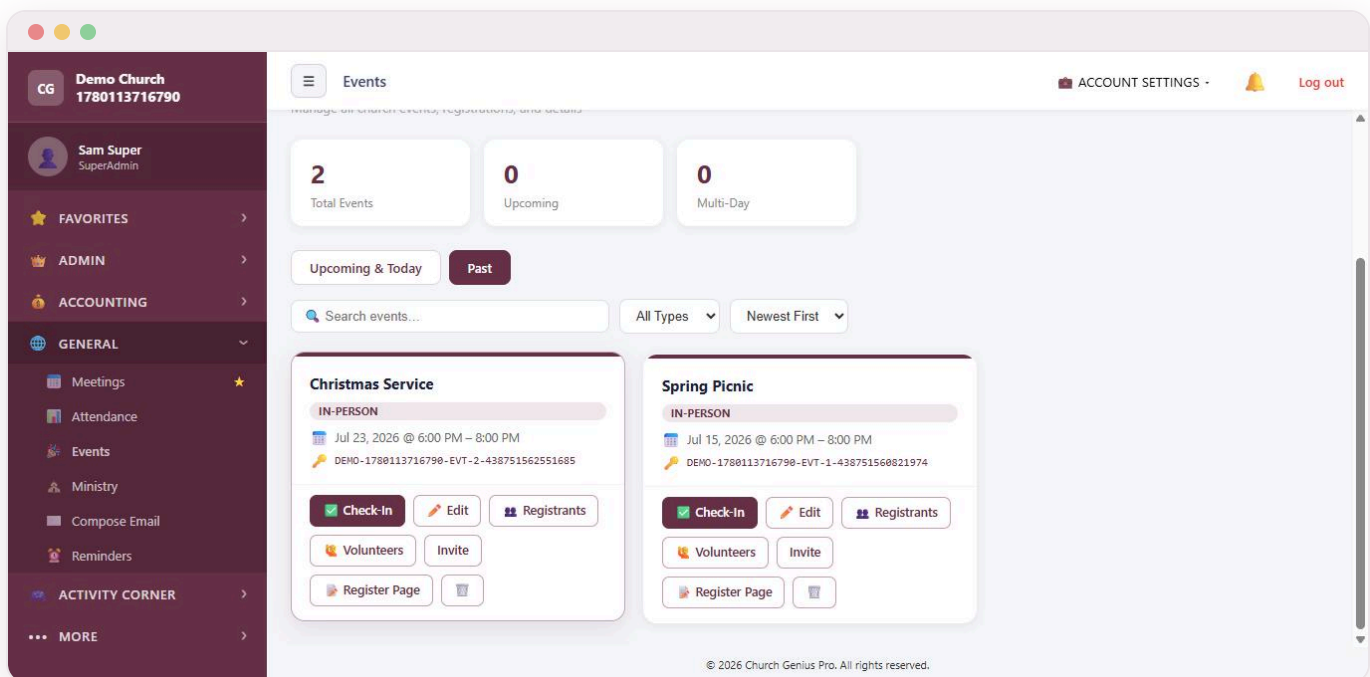

The Families view: every family group with member counts, status, and one-click profile access.

HOW IT HELPS YOUR CHURCH

- ✓ No more spreadsheets — one trusted, searchable directory for the whole congregation.
- ✓ Follow-up tracking makes sure new visitors and members never fall through the cracks.
- ✓ Member portals let families update their own information, keeping records accurate.

From invitation to check-in, handled

Create an event once and everything flows from it: a public registration page, QR-coded tickets, invitations, volunteer sign-ups, automated reminders, and day-of check-in. Track registrants and attendance for every service, picnic, conference, or class.

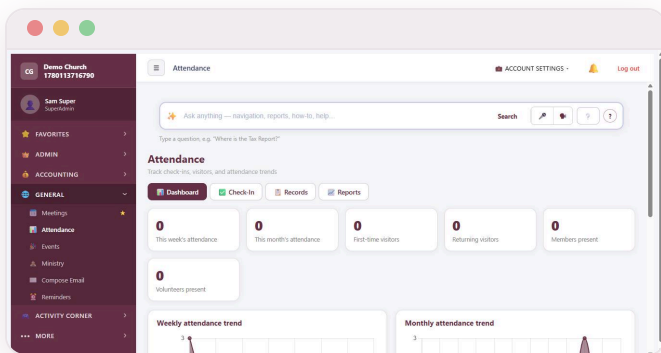

Event cards with one-click access to check-in, registrants, volunteers, invitations, and the public register page.

HOW IT HELPS YOUR CHURCH

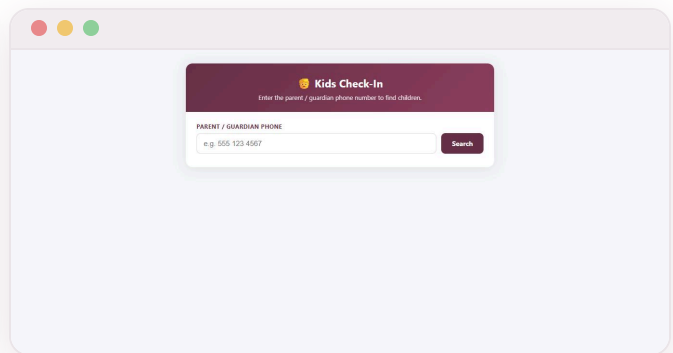

- ✓ Members register themselves online — your office no longer keys in sign-up sheets.
- ✓ Automated reminders raise attendance without extra phone calls.
- ✓ Each event carries its own volunteer roster and check-in station, ready on the day.

Count every soul, safely

Track weekly and monthly attendance, first-time and returning visitors, and members present — with QR, barcode, and camera check-in. The dedicated Kids Check-In kiosk gives parents secure pickup codes and printed labels for total peace of mind.

Attendance dashboard with weekly and monthly trends.

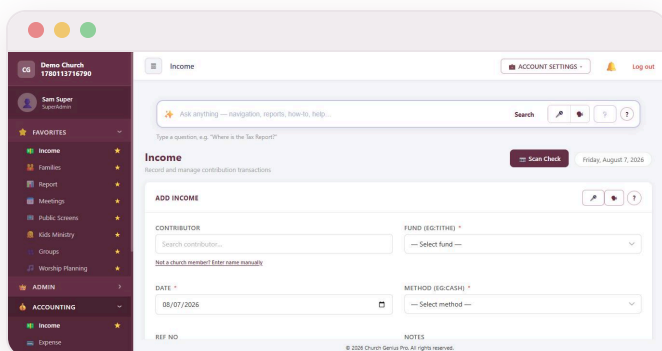

Kids Check-In kiosk — parents check children in by phone number.

HOW IT HELPS YOUR CHURCH

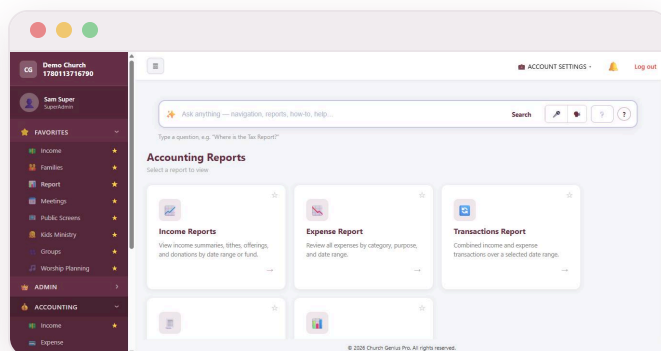

- ✓ Attendance trends reveal growth and engagement patterns leadership can act on.
- ✓ Secure pickup codes protect children and reassure parents in kids ministry.
- ✓ Check-in runs on any device — no special hardware required.

Church finances, decently and in order

Record tithes, offerings, and expenses by fund, contributor, and method — or simply scan a check and let AI fill in the entry. Purpose-built reports cover income, expenses, transactions, family giving, and year-end tax statements, ready to print or export.

Income entry with contributor search, funds, and one-click “Scan Check” AI capture.

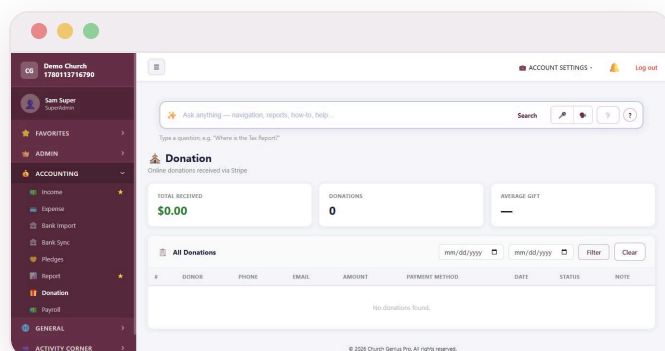

Accounting Reports hub: income, expense, and combined transaction reports.

HOW IT HELPS YOUR CHURCH

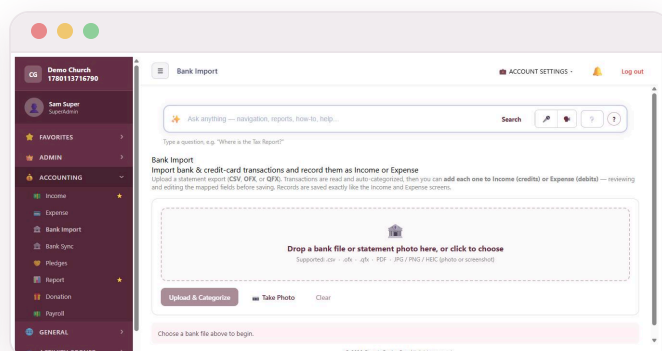

- ✓ Treasurers close the month in hours, not weekends — entries, funds, and reports live together.
- ✓ Check scanning and statement OCR eliminate tedious manual data entry.
- ✓ Year-end contribution statements and tax reports are generated automatically.

Giving made easy — books made accurate

Accept online donations through a secure Stripe-powered giving page branded for your church, and watch every gift flow into your books with totals, averages, and donor detail. Bank synchronization and statement import read your bank files — even photos of statements — and auto-categorize each transaction as income or expense for your review.

Online donations received via Stripe, with totals and full donor detail.

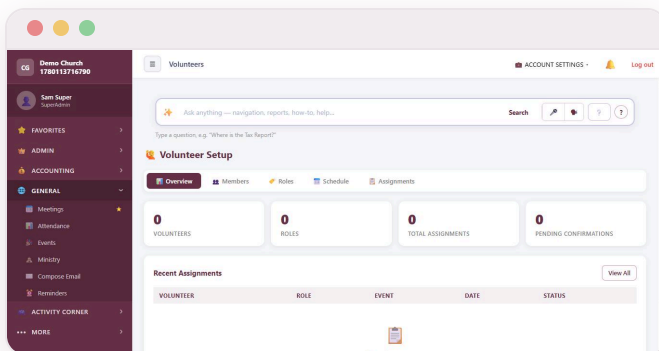

Bank Import: drop a CSV, OFX, QFX, PDF — or a photo — and transactions are auto-categorized.

HOW IT HELPS YOUR CHURCH

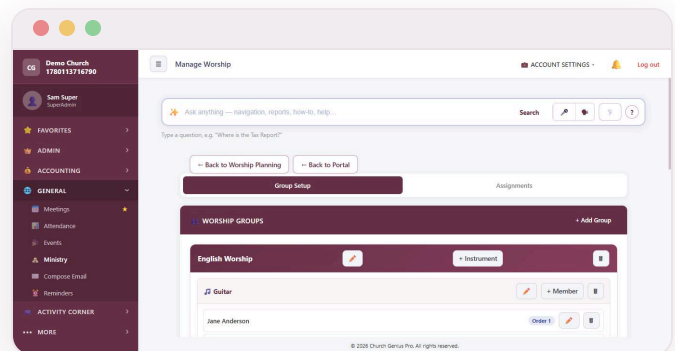

- ✓ Members give anytime, from any device — giving no longer depends on the offering plate.
- ✓ Bank sync keeps books reconciled with a review queue, so nothing posts without approval.
- ✓ Every online gift is receipted and included in year-end statements automatically.

Serve together, plan together

Define volunteer roles, take sign-ups, and build rosters for every event and service — with pending confirmations tracked automatically. On the worship side, organize teams by instrument and voice, rotate assignments fairly, and share the schedule with everyone involved.

Volunteer Setup: members, roles, schedules, and assignment tracking.

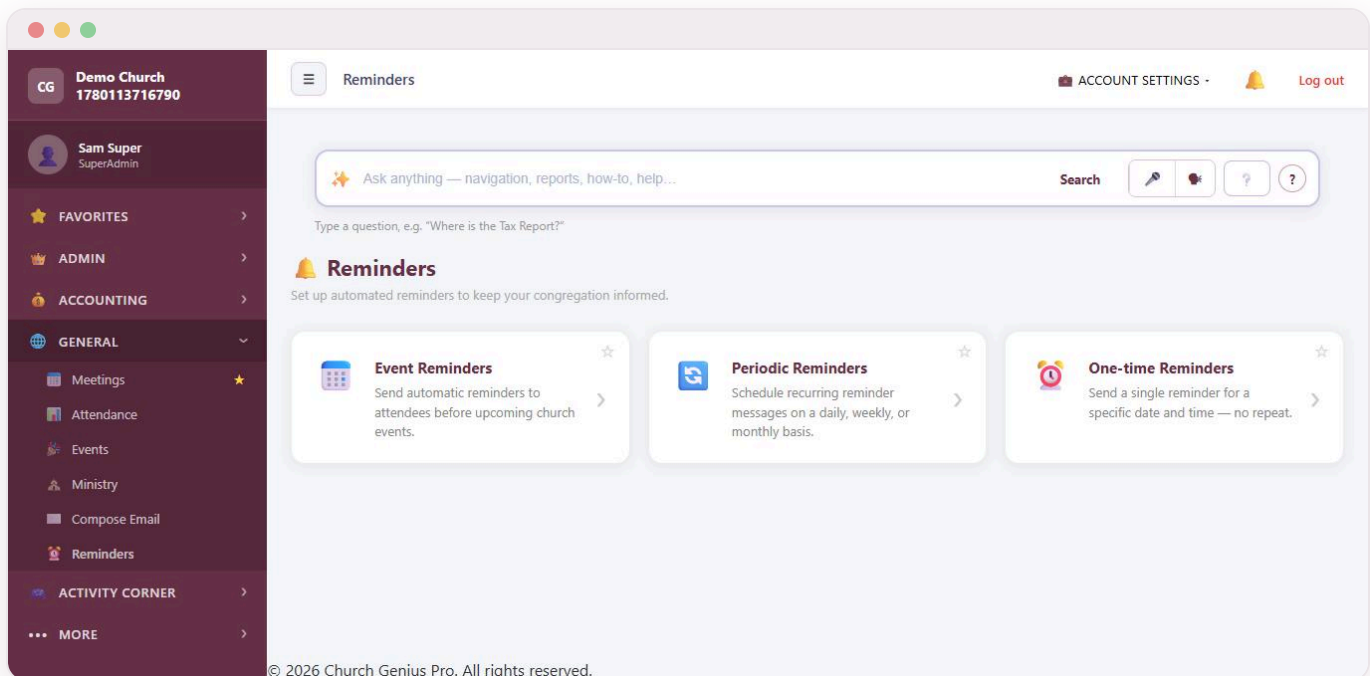

Worship groups organized by instrument, with ordered member rotation.

HOW IT HELPS YOUR CHURCH

- ✓ No more Saturday-night phone chains — volunteers see and confirm their assignments online.
- ✓ Fair, visible rotations keep worship team members engaged and rested.
- ✓ Every event's serving roster lives with the event, so nothing is scheduled twice.

The right message, at the right time

Keep your congregation informed automatically. Event reminders go to attendees before every gathering; periodic reminders run daily, weekly, or monthly; one-time reminders handle special announcements. Delivery spans email, SMS text, and in-app notifications — with birthday and anniversary greetings and meeting reminders handled for you.

Reminder center: event, periodic, and one-time reminders — set once, delivered automatically.

HOW IT HELPS YOUR CHURCH

- ✓ Attendance improves when every member gets a timely, personal reminder.
- ✓ Birthdays, anniversaries, and meetings are never forgotten — the system remembers for you.
- ✓ SMS opt-in compliance is built in, protecting your church and your members.

Simple plans for every congregation

Start free and upgrade anytime. No setup fees, no long-term contracts — and every plan includes secure cloud hosting, backups, and free updates.
